

It happens.

A surgeon requires a specialty instrument for back-to-back cases or a patient-specific item is needed for quick turn-around. To most effectively manage your case load there's a legitimate need and demand for quick and compliant reprocessing.

WHEN EVERY SECOND COUNTS

It is vital for you to have complete confidence in a connected solution so you can focus on what really matters - better patient care.

STERILE AND 100% COMPLIANT – EVERY TIME.

WHEN TIME ISN'T THE ONLY THING ON YOUR MIND

STERIS's Quick Turn Center is an innovative solution dedicated to successfully reprocessing your quick turn instruments when time is of the essence. From cleaning to prep and pack, all the way through sterilization, you'll feel assured knowing these are the same integrated processes and solutions you've always trusted from your ONE partner in the CSSD.
